President's Message

Chances are, if you're reading this catalogue you're thinking of making a change in your life. You're not alone. Every year, thousands of people come to George Brown College because they want to make a change – start a new career, get ahead in their current jobs, or uncover a hidden talent.

At George Brown, we're working to provide the courses and services you need to make positive changes in your life.

Through Continuing Education, we offer a wide range of part-time courses in personal development, academic, and technical areas. You can take almost any one of these courses on its own, or you can complete a number of related courses and earn a certificate or diploma. We also offer post-diploma courses for people who are looking for specialized training to add to their diploma.

But if we're here to help you make a change, we have to do more than provide classroom instruction. We have to provide the support you need to achieve your goals.

With this in mind, we're planning a number of services especially for Continuing Education students: free workshops on career change, study skills, and writing; expanded counselling services on campus in the evening; and a new handbook to orient you to the college.

For many of you, this catalogue is your first look inside George Brown – The City College. I hope that one of our Continuing Education courses will be your key to change.

D.E. Light
President

Communications

Certificate in Communications

Our Communications Certificate will help you win that paper war at the office with courses in written communications that will make your letters, memos, and reports clearer, more concise – and hard to ignore. We also have courses that will put more punch in your oral presentations and public speaking, teach you to build your vocabulary or improve your reading speed and comprehension. Our approach is all business and our instructors are professional communicators. Students who have satisfactorily completed each course will receive a certificate of competence and, on completion of six courses, may apply for a Certificate in Communications. Courses selected from the Creative Writing Certificate program may be used as credits for this certificate. For more information, please phone 867-2092.

Speaking with Confidence

When you are called on "to say a few words" to a social or a business group, do swarms of butterflies fill the pit of your stomach? And is that fluttering panic you feel holding you back in your private and business life?
Speaking with Confidence teaches you to make those swarms of butterflies fly in formation; to turn panic into poise.
You will learn to deliver reports and to give presentations with visual aids; to introduce guest speakers, to give a presentation and an acceptance speech.
Instructor: Hugh Thomson, writer, editor, public speaker.
Mon. 7 to 10 p.m. St. James Campus
36 hours Fee: $62.60
September 18 to December 11 • **ELS 809**

Bare Essentials

This course offers the "essentials" of writing skills for the student who is not quite ready for business, technical or creative writing courses. Basic rules of grammar, extensive practice in paragraph writing, punctuation, spelling and some speaking skills are included.

Wordplay: Enlarging Your Vocabulary

Are you often at a loss for words? This course teaches you how to improve your vocabulary and build your self-confidence in language use. Wordplay's workshop environment is supportive and non-intimidating. Words are explored through contemporary methods such as role-playing, visualization, and guided conversational exercises. Audio/visual aids are employed. Students work from a dictionary, Roget's Thesaurus and a text designed to increase vocabulary.
Instructor: Mike Kilpatrick
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 21 to December 7 • **ELS 823**

The Reading Workshop

The Reading Workshop is a course for students who want to explore the exciting world of reading. It's a course for those who want to improve their reading skills. It's also for those who already read well but would like to learn to enjoy the activity more. It's practical. Speed and comprehension are taught through games, exercises and drills, some involving computer play. Students learn "gears" – techniques for studying, slow reading, rapid reading or skimming. It's fun. Reading is experienced as an enjoyable activity. Reading matter includes magazines, newspapers, technical, business and industrial reports, essays, fiction and poetry.
Instructor: Mike Kilpatrick

Certificate in Creative Writing

Develop your romance (or mystery or feature story or poem). You can learn romance writing from a Harlequin editor, poetry from a prize-winning Canadian poet, and journalism from a former Globe and Mail newshound. If that's not enough, try writing children's literature or a screenplay — the choice is yours. You can develop your own style and learn some of the tips of the trade at the same time. After the satisfactory completion of each course, students will receive a certificate of competence and, on completion of six courses, may apply for a Certificate in Creative Writing. These courses may be used to fulfill elective requirements in the General Arts and Science Diploma Program. For more information, please phone 867-2092.

Writing for Clarity and Impact

This is a course designed for the student who wishes to write clearly and precisely in any situation — business, social, academic, political and journalistic. This is a nuts and bolts course in which language usage and style are examined critically. Students are required to write and review their work.
Instructor: Arnie Achtman

Writing for Self-Expression *New*

Prerequisite: ELS 901
This is an advanced, intensive workshop following the same writing and teaching principles as Writing for Clarity and Impact. Students write at least one assignment a week, then read and discuss their work in class. Most of the assignments are personal narratives – stories from life – with the objective of illustrating key writing virtues: honesty, clarity, simplicity, directness, vividness and originality. Other types of assignments – interviews, evaluations, persuasive arguments – illustrate how the writing objectives of the expressive narrative can be adapted to more specialized forms of writing. Enrolment is limited to 15 participants.
Instructor: Arnie Achtman
Wed. 6 to 9 p.m. St. James Campus
36 hours Fee: $62.60
September 20 to December 6 • **ELS 831**

Journalism: Springboard to a Career

News is anything that interests people. Nevertheless, it can be recognized and written only by those with "a nose for news" and a knowledge of how to write it for each of the media — the press, TV and radio.
This course develops that news-sense and those writing styles for general reporting and for the specialized covering of sports, entertainment, business, politics, science, education, religion, etc. If you're not interested in a journalistic career, this course will sharpen your observation and enjoyment of the daily news, in print and on the air, because you'll be an insider, someone "in-the-know."
The instructor is Hugh Thomson, a former CBC radio interviewer, Toronto Star columnist and Globe and Mail editor.
Wed. 7 to 10 p.m. St. James Campus
36 hours Fee: $62.60
September 20 to December 6 • **ENG 934**

Writing for Fun and Profit

Today, with magazines laying off staff writers to cut costs, editors are seeking, as never before, contributions from freelance writers. So why not try writing feature articles or interview stories? Why not submit fillers, lyric poetry, light verse or travel articles? Or stories for children as well as stories for adults? Or humorous features or opinion pieces on lively current issues?
This course is for those eager to give freelance magazine writing a solid, educated try under the guidance of a professional writer and former editor of the Globe and Mail.
Instructor: Hugh Thomson
Thurs. 7 to 10 p.m. St. James Campus

Creating Short Stories

The short story is enjoying a revival. This class/workshop explores the fundamentals of short story technique and structure, plotting, dialogue, characterization, tone and setting and offers an introduction to experimental writing. Guided by published author Nancy Kilpatrick, students create a short story in class as well as present works-in-progress for support and constructive feedback.
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 21 to December 7 • **ENG 801**

Short Story Workshop — Advanced

Prerequisite: Solid understanding of short story writing techniques and/or Creating Short Stories – ENG 801 or equivalent.
This intensive workshop is devoted to in-depth analysis of short stories written by participants. Each student provides the class with photocopies of his or her short fiction to be critiqued between sessions and then discussed in class. Guided by instructor Nancy Kilpatrick, focus is on line-by-line and overall feedback — both technique and gut reaction. As well, marketing suggestions and strategies are discussed. The number of participants is limited to ensure maximum concentration on each story.
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 20 to December 6 • **ENG 918**

Writing Mysteries

Are you dying to write a mystery? This course explores the theory and structure of mystery writing and develops stylistic techniques in a workshop situation. Each student writes either a short story or two chapters and an outline of a novel during the course and receives editing advice from the instructor (a published mystery writer) and from other students.
Instructor: Peter Robinson.
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 21 to December 7 • **ELS 827**

Advanced Mystery Writing Workshop *New*

Prerequisite: ELS 827 or equivalent.
Participants spend the course working on a project, a novel-in-progress. Classes cover all aspects of writing the mystery novel – including outlines, plotting, characterization and research – as and when these aspects relate to each student's needs. Participants bring to the first class meeting a tentative outline or a brief plot summary and list of characters. Students are not expected to have written an entire novel by the end of the course, but they should have a number of chapters completed, a strong sense of their characters, and a clear idea of where the plot is heading.
Instructor: Peter Robinson
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 27 to December 13 • **ELS 833**

Poetry Workshop

This course provides an ongoing workshop approach to creative writing, emphasizing a collective critique by peers of submitted material. The instructor provides direction and focus during the session, as well as an overall strategy of development. The course facilitates in-class improvement of writing skills.
Students in this course bring established habits or patterns of writing and a commitment to developing their own material. The emphasis is on poetry, with particular attention to modern forms.
Instructor: Christopher Dewdney.
Mon. 7:00 to 10:00 p.m. St. James Campus
36 hours Fee: $62.60
September 18 to December 11 • **ELS 902**

Writing for the Theatre

A Toronto writer provides an opportunity for students to learn the basics of writing performable plays. In the process of reading and analyzing the text of a contemporary full-length play, students will learn and practise how to make characters come alive, write believable dialogue, and structure their own scenes for maximum dramatic impact. The course includes the viewing and analysis of a live theatrical production. Instructor: Janis Rappaport.
Tues. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 19 to December 5 • **ELS 822**

Write Your Own Screenplay

You have a great idea for a screenplay, but you don't know where to start?
There are definite structural stages a writer works through in fleshing out and dramatizing an idea — and this course leads the student step-by-step through those stages. Each student writes an outline of a full-length screenplay and the first 30 pages of a script based on that outline. In addition, marketing information and advice will be provided by the instructor, Nika Rylski, a scriptwriter with over 30 TV, film and radio credits to her name.
Thurs. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 21 to December 7 • **ENG 913**

Screenwriters' Workshop — Advanced

Prerequisite: ENG 913 or equivalent.
You've written the first 20 to 30 pages of your screenplay and need professional guidance (someone to hold your hand!) as you tackle the next 60 to 90 pages. Screenwriters' Workshop guides participants in the preparing and completing of Acts 2 and 3 of a full-length screenplay. In addition to script editing advice, the instructor provides information on a variety of screenwriting techniques and topics such as Adaptation From Other Media, The Fine Art of Pitching and Writing Scripts for other Media and Genres.
Instructor: Nika Rylski
Wed. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 20 to December 6 • **ENG 922**

Writing T.V. Scripts That Sell *New*

The situation and the characters already exist. How do you – the potential television writer – plug your idea into that predetermined context? Guided by experienced TV writer Nika Rylski, students build a storyline and create a script in class for an already existing TV series. Learn the requirements of the different series that dominate television today, how to pick and analyze the genre that's "right" for you, how to write within the particular format imposed by that genre – and how and when to approach producers with your story proposals.
Mon. 6:30 to 9:30 p.m. St. James Campus
36 hours Fee: $62.60
September 18 to December 11 • **ELS 832**

Women Writers' Workshop

Participants in this course work on their own creative writing projects in poetry, fiction, literary nonfiction and their combinations. Students will also look at selections from women writers, with focus on those who are exploring new ways to approach content and/or form, and who are broaching themes such as sexuality from a female viewpoint as well as on traditional themes infused with a female sensibility.
Intructors: Libby Scheier and Bev Daurio
Mon. 6 to 9 p.m. St. James Campus
36 hours Fee: $62.60
September 18 to December 11 • **ENG 923**

The Complete Travel Writer

In this course potential travel writers learn to construct travel stories in both newspaper and magazine styles. They learn to illustrate their stories using a 35 mm camera which they must provide. Story proposals and approaches to editors, developing contacts, marketing finished stories, the ethics and responsibilities of travel writers, and business aspects of travel writing are all covered. This course includes one Saturday field trip.
Instructor: Bruce Kemp

September 19 to December 5 • **ENG 929**

Writing for Children

Children's books are *magical*.
Increasing numbers of people want to be part of the surge in children's literature in this country, to create that special book which young readers will always remember. In this course, presented by one of the staff of the Canadian Children's Book Centre, students meet established writers, illustrators, editors and publishers. They learn about the children's literary marketplace and publishing industry, and receive practical suggestions about how to approach a publisher. In addition, they have an opportunity to explore their motivation in writing for children and, through extensive workshop experience, to hone their writing skills. At the first class meeting, materials will be available for which the fee is $10.00. Students register at St. James Campus. Classes meet at the Children's Book Centre, 229 College Street.
Instructor: Peter Carver

September 19 to December 5 • **ELS 910**

Romance Writers' Workshop

Prerequisite: Ability to write creatively.
Every month, more than 140 romance novels hit the stands. Publishers are eager to find reliable new talent to meet their publishing requirements. Despite the opportunities for romance writers, rejects are high because aspiring writers are unaware of what the publishers want. Let Nancy Roher, editor of Harlequin books, help you break into the romance fiction market. She helps you understand the market, and identifies your style and gets you started on your next romance.
Mon. 6:30 to 9:30 p.m. St. James Campus
24 hours Fee: $43.40
September 18 to November 13 • **ELS 812**

Advanced Romance Writing

Prerequisite: Romance Writers' Workshop.
This course is designed for the serious romance writer who has already written introductory chapters of a romance novel. The course guides the student to successful completion of a novel. Advanced Romance Writing gives intensive editorial assistance for in-process work. The class is restricted to 12 to 15 students to ensure maximum contact between instructor/editor and student. Individuals learn through interaction with other writers to overcome problems that all writers share.
Instructors: Nancy Roher and Valerie Susan Hayward
Sat. 10:00 a.m. to 1 p.m. St. James Campus
30 hours Fee: $53.00

Client Services

George Brown College offers a variety of programs and services which are available to the Business and Industry Community. We can assist your company in implementing training; on the job, in your plant, at our college or any other suitable location. Existing programs may be utilized, altered to meet your needs or, if required, a new training program will be designed to meet your specifications.
For further information, please call the Client Services Unit at 867-2270.

Training to Improve Communications in Multicultural Workplaces

George Brown College can offer courses that will improve communications and job effectiveness in multicultural workplaces.

Management Personnel

This 16-hour course is designed to increase the awareness and skills needed by management to effectively communicate with and supervise a multicultural work force. The course includes the impact of culture on communication and behaviour and how to prevent and deal with intercultural miscommunication at the workplace. It also looks at how to convey information and instructions to second-language speakers. Race relations issues and strategies for dealing with these issues are dealt with.

Staff

A course of appropriate duration will be set up at any workplace for staff whose first language is not English. The course is aimed at improving participants' communication with supervisors, co-workers and clients. It may include how to give instructions, how to ask for an explanation, how to relay problems to supervisors, etc. The policies and practices of the organization will also be introduced and, in order to improve communications between the different cultural groups, intercultural communication will be covered.

For more information about these courses, please call 867-2270.

Saturday Writing Seminars — Informal Round-Table Learning

Travel Writing

Everybody is travelling far and wide these days; travel publications are flourishing and their editors are eager to receive freelance stories. Most they get in the mail are, however, rejected because the style and the content are useless.
The instructor, Hugh Thomson, a veteran travel writer, shows you how to write a fresh, imaginative style (free of "travelese") and to slant each piece to suit the travel editor.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $40.00
September 23 • **ELS 825**

Writing Technical and Trade Articles

Technical and Trade Articles range from simple stories of successful business practice to accurate but readable features on medical research, engineering, electronics or chemistry. No specialist degree or background is demanded. You must, however, love to write, especially for a select group of readers, and for the general public. Trade and Technical writing is in enormous demand in this day of science and technology.
Sat. 10 a.m. to 4 p.m. St. James Campus.
6 hours Fee: $40.00
September 30 • **ENG 807**

The "New" Biography

Today, books of the most intimate biography and tell-all magazine profiles on persons in the public eye keep tumbling from the presses to meet the rage for "psycho-biography". To write and sell such candid life stories you must take over the Sherlock Holmes magnifying glass and the Sigmund Freud couch; lay bare the most personal facts and motives that shaped your subject's life. Free-swinging discussions will follow talks on the leading psycho-biographer, Leon Edel, and on the no-holds-barred-life-stories of Leonard Bernstein and Frank Sinatra. Dainty, tiptoe-through-the-tulips biography is dead, so go with the flow!
Instructor: Hugh Thomson
Saturday 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $40.00

Be a Freelance Critic

Toronto is one of North America's leading centres for the performing and visual arts, and magazines and newspapers welcome qualified freelance reviewers to help cover the bustling arts scene. For such assignments you are paid to sit in the best seats and review the art form you know and love best.
For 20 years, the instructor, Hugh Thomson, was music-drama-art critic with the Toronto Star and, subsequently, was Entertainment Editor of The Globe and Mail. The seminar could launch you on a career as critic, part-time or full-time.
Sat. 10 a.m. to 4 p.m. St. James Campus
6 Hours Fee: $40.00
October 28 • **ELS 821**

Facts Cast In Fiction Form

Today, the most marketable non-fiction is the unforgettable experience in your life, or an experience that taught you the lesson of your life. In the writing business, these are called Drama-in-Real-Life and Art-of-Living Feature, respectively. If you have such dramatic experiences in your life and want to write and sell them, you must cast them in the mold of the short-short (fiction) story. This seminar shows you how to compose, set up and market such sure-fire pieces.
Instructor: Hugh Thomson
Sat. 10 a.m. to 4 p.m. St. James Campus

Make The News Media Work for You

Editors of newpapers, T.V., radio, general magazines, trade and professional journals toss out most of the publicity releases they receive from industries, professions, governments and associations. Yes, even those with viable news buried in huckster-style writing. For publicity writing must be news writing, yet seldom is. A veteran promotion director, news writer and editor with the Toronto Star and Globe and Mail shows in this course those in public relations and those eager to break into it, how to make the print and broadcast media their oyster.
Instructor: Hugh Thomson
Sat. 10 a.m. to 4 p.m. St. James Campus
6 hours Fee: $40.00
November 11 • **ENG 806**

Interviews that Sell

Big sellers today are the interviews with celebrities or with non-celebrities engaged in some noble or some unusual activity, strong in human interest.
The seminar covers both the "personality sketch" (an interview with, say, a visiting star) and the "opinion profile" (an interview with, say, Britain's Prime Minister).
It shows you how to establish instant rapport with your subject and how to write your interview so that the spotlight falls revealingly on the interviewee and makes the readers feel they were present. It demonstrates how best to set up each manuscript to meet the demands of each kind of publication.
The seminar demonstrates how to interview with note-taking and with a tape recorder, how to interview authorities when you are doing research for a non-ficiton article or a non-fiction book.
Sat. 10 a.m. to 4 p.m. St. James Campus

Breaking Into Print: How to Write for Magazines

In this one-day workshop, participants benefit from help given by a skilled practitioner in assessing their own writing potential and in deciding the field in which they can specialize and place their articles. They receive practical tips on planning, researching, and organizing an article. Class assignments provide the opportunity to evaluate articles and to improve their own writing and marketing skills.
Instructor: Nancy Kilpatrick regularly has her own articles published in various magazines and journals. She teaches Short-story Writing and Writing For Fun and Profit at George Brown.

The Creativity Workshop *New*

Creativity is the road to self-fulfillment but, all too often, it is a road that is blocked. The Creativity Workshop is designed to stimulate imaginative juices and clear the roadblocks to innovation. This workshop will help those interested in the arts, as well as business people and professionals.
Freeing up the intuitive part of the brain leads to self expression as well as inventive approaches to problem-solving.
Through the use of exercises involving drawing, writing, music, theatre, active-imagination and -brain-storming, students learn what works for them.
Co-instructors Nancy and Mike Kilpatrick offer numerous techniques that culminate in released creativity. They both teach communications and creative writing courses at George Brown.

Liberal Studies

Certificate in Liberal Studies

Grasp the long arm of the law, the inner workings of the human mind, the complexities of our changing society or the riddles and answers of philosophy with our Certificate in Liberal Studies. Choose from courses in psychology, sociology, philosophy, ethics and women's studies. Discuss with psychologists, sociologists, philosophers and financial advisors the perplexing issues that face us as individuals and as a society. People working toward this certificate may include courses in communications, creative writing or French among their Liberal Studies options. After the satisfactory completion of each course, students will receive a certificate of competence, and on completion of six courses may apply for a certificate in Liberal Studies. These courses may be used to fulfill elective requirements in the General Arts and Science Diploma Program.

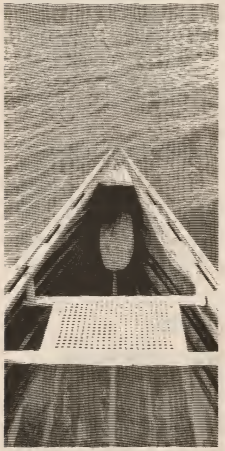
Outdoor Adventure



It's time to leave the city behind and escape to the great outdoors.
To smell the clean air and feel the sun on your face. To hear the wind in the trees and the lapping of water on the shore. George Brown College and the Harbourfront Canoe School have already planned your escape with expeditions that can have you canoeing Northern Ontario lakes, hiking the Canadian Shield and kayaking around Prince Edward Island. Our carefully designed trips will soothe your spirit and sharpen your mind with informal talks by our expert instructors about the geology, flowers, history and ecology of the areas you'll travel through. We'll provide the professional instruction and the specialized equipment you'll need and make arrangements for meals and accommodation. All you need is some rugged clothing, the spirit of adventure — and the will to escape.

Hike the Canadian Shield

The Canadian shield is the largest and most diverse geographical feature in Canada. This unique hiking trip takes participants past uncottaged lakes, huge cliffs, rugged shorelines and some of the oldest rock on the planet. This hike offers swimming, photographic opportunities, good food and a chance to learn more about hiking equipment and techniques. Round trip transportation, food, and tents are included.

French

George Brown offers a comprehensive selection of French courses to suit everyone from beginners learning their first few phrases to fluent speakers who want to perfect their professional vocabularies. The core of George Brown's French offerings is made up of second-language conversation courses. In these courses, students learn to speak and understand French in a relaxed and lively atmosphere. The Centre uses up-to-date teaching methods that emphasize authenticity, students' participation, pronunciation, listening skills and role playing.
For more advanced students or Toronto francophones, the Centre offers a variety of French courses ranging from business French and microcomputer programming to drawing.
Some courses can be combined by intermediate and advanced students to earn a Certificate of Proficiency in French which is particularly useful to people who use French at work.

Certificate of Proficiency in French

Students must complete Speaking French Level 6 as well as four courses in French in order to graduate. Students exempted from all Speaking French courses must complete five courses in French.

Compulsory Courses:
Speaking French — LT 804, LT 805, LT 828, LT 835 levels 3,4,5 and 6, or LT 932 levels 2A and 3A.
Students placed at levels higher than 3 are granted equivalence status for the lower levels.
Grammaire française — LT 927
Culture et société franco-canadiennes — LT 824

Electives
(two or three courses from this section):
Correction phonétique — LT 929
Le français langue des affaires — LT 928
Communication écrite I — LT 822
Communication écrite II — LT 926
Introduction à la traduction — LT 823
La programmation sur micro-ordinateur I — PRGM 925A
Micro-ordinateur pour gestionnaires — PRGM 801
Introduction au LOTUS 1-2-3 — PRGM 802

Note: Students enrolled in the certificate program must attend 80% of the classes and obtain a "B" standing in order to proceed.

Interviews:
New students of French as a second language even if they have no previous knowledge of French must have a short placement interview during registration week, two weeks before the start of classes. Times and places for interviews are indicated after each course listed below. Returning students should register at least two weeks before the start of the courses.

Basic Level Courses
Levels 1A — 1B and 2A — 2B
Students develop conversational skills that enable them to express themselves simply in various daily situations. Attention is also given to the structures of the language and pronunciation. In level 2, students are encouraged to express opinions, relate events and tell simple stories. Rudiments of the past and future tenses are also studied.

Intermediate Level Courses
Levels 3 and 4
Students learn to express themselves more correctly and precisely. A lot of class work is based on the interests and occupations of the students. They are urged to discuss topics of personal interest, happenings in their lives and current events.

Advanced Level Courses
Levels 5 and 6
At this level, students can convey their message in almost every situation as they refine their skills in expressing doubt, insistence, feelings, necessity, etc. Idiomatic usage and the finer points of grammar are dealt with and students are challenged to defend opinions and ideas. They are encouraged to take advantage of francophone activities in Toronto.

George Brown College in Cooperation with The Institute of Law Clerks of Ontario

The Ministry of Skills Development in its Training Profile (1986) for the Law Clerk defines "law clerk" as:
"...a trained specialist, capable of doing independent legal work, which may include managerial duties, under the direction and guidance of a Barrister and Solicitor, of routine legal and administrative matters and to assist him in the more complex ones.
The program is comprised of four courses offered over two years. In year one, you are exposed to the areas of real estate and estates. In year two you are exposed to litigation and corporate law.
Students have the opportunity of writing a province-wide exam set and marked under the supervision of the Institute of Law Clerks of Ontario. Successful completion of the Institute's four exams is a necessary requirement for associate level membership within the Institute and such completion is a universally accepted standard of achievement within the legal profession, as is membership in the Institute.
As these courses are part of a program leading to a certificate with the Institute of Law Clerks, it is advised that those without some legal background may have initial difficulty handling the concepts.

4 Courses:
Real Estate – LAW 804 (Fall only)
Litigation – LAW 802 (Fall only)
Estates – LAW 803 (Winter only)
Corporate – LAW 801 (Winter only)

Institute of Law Clerks Examination Dates: (Tentative)
Real Estate – January 9, 1990
Litigation – March 6, 1990
Estates – April 17, 1990
Corporate – June 19,1990
Please Note: examination make-ups are not available as exams are written on a province-wide basis on the dates shown.

This introductory course on basic marketing is designed for people with little or no background in marketing. Learn to apply the basic tools of marketing to a small- or medium-sized business.
Thurs. 6 to 9 p.m. St. James Campus
30 hours Fee: $53.00 Materials: $5.00 plus purchase of course kit and text.
September 21 to November 23 • **OMDP 936**

Effective Supervision — Production
For supervisors, aspiring supervisors and forepeople in a production or manufacturing industry. Topics include: the role of the supervisor, principles of effective supervision, employee motivation, planning, developing and implementing a daily work schedule, setting objectives, measuring results and efficiency.
Mon. 6 to 9 p.m. St. James Campus
30 hours Fee: $53.00 Materials: $5.00 plus purchase of course kit and text.
September 18 to November 27 • **OMDP 940**

Effective Supervision — Communications
Assists supervisors and management personnel in improving verbal and written communication techniques. Topics include: learning to listen, barriers to communication, common problems, and the meaning of communication.
Wed. 6 to 9 p.m. St. James Campus
30 hours Fee: $53.00 Materials: $5.00 plus purchase of course kit and text.
See equivalency for CCUI page 36.
September 20 to November 22 • **OMDP 942**

How to Operate a Successful Retail Store
Designed to help you become a better retailer and turn your plans into reality and profits. Topics include: managing price changes, pricing and profit, controlling your inventory, and designing your store for maximum sales.
Wed. 6 to 9 p.m. St. James Campus
30 hours Fee: $53.00 Materials: $5.00 plus purchase of course kit and text.
September 20 to November 22 • **OMDP 948**

Bookkeeping
An introduction to basic bookkeeping that shows how accounting can help to manage a small business effectively. This course is not equivalent to BOK 552XA.
Sat. 9 a.m. to noon St. James Campus
30 hours Fee: $53.00 Materials: $5.00 plus purchase of course kit and text.
September 23 to December 2 • **OMDP 953**

Effective Communication in Today's Business World
For administrators, managers and supervisors who want to improve their interpersonal communication skills. Topics include: negotiating and dealing with the individual, speaking out, communication for results, leadership training, using task groups to solve problems, handling conflicts, creativity and brainstorming.
Sat. 9 a.m. to 3 p.m. St. James Campus
30 hours Fee: $53.00 Materials: $5.00 plus purchase of course kit and text.
September 25 to November 4 • **OMDP 954**

The Supervisor — Training and Developing Staff
Techniques for supervisors on how to train and develop staff. Topics include: setting standards, evaluating performance, counselling employees, how to run a better meeting, decision making techniques, and training in job skills.
Mon. 6 to 9 p.m. St. James Campus
30 hours Fee: $53.00
Materials: $25.00 plus purchase of text.
September 18 to November 27 • **OMDP 955**

Technology

Heating Fuels Certificate Program
A Certificate in Heating Fuels will be awarded on successful completion of the following courses:
HT 910 – Gas Fitter I
HT 907 – Gas Fitter II
HT 913 – Oil Burner II
HT 915 – Basic Electricity and Controls
HT 919 – Propane Gas

Residential Heating and Air Conditioning Certificate Program
A Certificate in Residential Heating and Air Conditioning will be awarded on successful completion of the following courses:

AIR 905 – Air Conditioning, Residential and Small Commercial
HT 900 – Warm Air Heating and Air Conditioning
HT 907 – Gas Fitter II
HT 913 – Oil Burner II
HT 915 – Basic Electricity and Controls.

Balancing of Mechanical Systems Certificate
A Certificate in Balancing and Mechanical Systems will be awarded on successful completion of the following courses:

AIR 900 – Air Conditioning Design I
AIR 901 – Air Conditioning Design II
AIR 905 – Air Conditioning Residential and Commercial
AIR 910 – Building Mechanical Systems
Advanced Balancing Procedures
SM 911 – Sheet Metal Pattern Drafting

Stationary Engineering Fourth Class Certificate
A Certificate in Stationary Engineering Fourth Class will be awarded on successful completion of the following courses:

STAT 941 – Power Plant Applied Science
STAT 942 – Power Plant Chemistry
STAT 943 – Power Plant Boilers and Auxiliaries
STAT 944 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 945 – Power Plant Electrics and Instrumentation
STAT 946 – Power Plant Applied Mechanics

Stationary Engineering Third Class Certificate Program
A Certificate in Stationary Engineering Third Class will be awarded on successful completion of the following courses:

STAT 931 – Power Plant Applied Science
STAT 932 – Power Plant Chemistry
STAT 933 – Power Plant Boilers and Auxiliaries
STAT 934 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 935 – Power Plant Electrics and Instrumentation
STAT 936 – Power Plant Applied Mechanics

Stationary Engineering Second Class Certificate Program
A Certificate in Stationary Engineering Second Class will be awarded on successful completion of the following courses:

STAT 921 – Power Plant Applied Science
STAT 922 – Power Plant Chemistry
STAT 923 – Power Plant Boilers and Auxiliaries
STAT 924 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 925 – Power Plant Electrics and Instrumentation
STAT 926 – Power Plant Applied Mechanics
STAT 927 – Power Plant Drawing

Stationary Engineering First Class Certificate Program
A Certificate in Stationary Engineering First Class will be awarded on successful completion of the following courses:

STAT 911 – Power Plant Applied Science
STAT 912 – Power Plant Chemistry
STAT 913 – Power Plant Boilers and Auxiliaries
STAT 914 – Power Plant Heating, Refrigeration and Air Conditioning
STAT 915 – Power Plant Electrics and Instrumentation
STAT 916 – Power Plant Applied Mechanics
STAT 917 – Power Plant Statics and Fluids

Blueprint Reading and Drafting

Blueprint Reading for the Construction Trades

This course is intended for those working in all branches of the building trades and serves as a foundation for further study.
Course Content: Orthographic projection, dimensions, pictorial drawing, drawing to scale, symbols and conventions, construction plans, sections and details, reading and interpreting working drawings and an introduction to metric drawings.
Mon. and Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 18 to November 27 • **DR 931**

Construction Estimating

Prerequisite: Current employment in the construction industry.
This course is designed to introduce general estimating to building contractors, subcontractors and suppliers to the building industry. Topics include mensuration, ready plans and specifications, job costs, tender documents and the methods of accurately assembling quantities.
Mon. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 18 to November 27 • **DR 932**

Blueprint Reading for the Construction Trades — Advanced

Prerequisite: Successful completion of DR 931 or equivalent.
This course provides further study of: 1) construction working drawings by reading and interpreting whiteprints of various building types. 2) Construction Methods and Materials 3) Ontario Building code as related to plans and permits 4) Building trade inter-relation and co-ordination during construction.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **DR 933**

Blueprint Reading for the Welding Trade

Shows welders how to read blueprints. Topics include: a study of orthographic and pictorial drawing systems, freehand sketching, sketches of welded parts using multiview projection, basic dimensioning principles; a study of welded detail and assembly blueprints, including auxiliary views, scale drawings, shop notes, dimensions, tolerances, small tool operations, interpretation of welding symbols, sectional views and conventional practices.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **ENDR 572X**

Technical Drawing — Part I

A practical introduction to the techniques needed to work in a drawing office. Topics include: the use of instruments, lettering, linework, applied geometry, third angle orthographic projection, oblique and isometric drawings, freehand sketching, conventions and symbols, sections, tolerances, limits and fits, surface roughness, gears, cams, pipe fittings and layouts, plus electrical, layout and assembly drawings.
Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 21 to February 15 • **ENDR 901**

Blueprint Reading for Machine Trades

Provides tradesmen with a basic understanding of reading blueprints. Topics include: orthographic and pictorial drawing systems; freehand sketches of machine parts using multiview, isometric and oblique projections, and the interpretation of industrial blueprints including notes, specifications, dimensions, tolerances and surface finishes.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **ENDR 910**

Architectural Drafting — Part I

After an introduction to drafting equipment and procedures, topics studied include: Canadian symbols and conventions, foundation and floor plans for various types of construction, site plans, typical wall sections, introduction to metric drawings, and details of windows, doors, stairs and building codes.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 18 to November 27 • **DR 900**

Architectural Art and Presentation — Part I

Prerequisite: Successful completion of DR 900 or equivalent, employment as a draftsperson or illustrator, or graduation at the Grade 12 level in Architectural Drafting.
Course Content: One and two point perspective, freehand approach and office method, interior and exterior sketching projects, shades and shadows, delineation techniques of furniture, trees, grass, etc., use of pencil, pen, markers and letratone.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $53.00
September 18 to October 23
November 6 to December 6 • **DR 902**

Construction

Introduction to Construction

This course, developed in cooperation with the National Association of Women in Construction, covers the fundamentals of construction procedures and technology and includes a visit to a job site. Other topics include: an introduction to city and regional planning, managing, contracting, designing, engineering, estimating, bidding, inspecting, as well as the production work normally associated with construction.
Mon. and Thurs. 7 to 10 p.m. Casa Loma Campus
45 hours Fee: $77.00
September 18 to November 9 • **DR 904**

Intermediate Construction

Drawings, Specifications, Estimating, and Scheduling deals with interpreting information conveyed from architects and engineers to contractors by way of a legal document and implementing that fundamental understanding. It discusses the many components of the legal agreement that bind the parties in a construction project; working drawings, front-end documents of the Project Manual, specifications, estimates, proposals, and schedules.
Sat. 9 a.m. to 1 p.m. Casa Loma Campus
48 hours Fee: $81.80
September 23 to December 9 • **DR 905**

Construction Specifications

Principles of Construction Specifications

This course is offered in cooperation with "Construction Specifications Canada" (CSC). Prerequisite: A thorough knowledge of construction drawings, methods and materials used in buildings. After a general introduction, the following topics are covered: front end documents – document 0 and division 1, general conditions of contract, legalities, liens, payments, holdbacks, construction associates, bid depositories, bonds, insurance, building codes, industry and association standards, and the assembly and writing of specifications, including the 16 division format and the three-part section format.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
63 hours Fee: $265.00
September 9 to February 10 • **SPEC 900**

Consultant Specifications & Contract Law

Prerequisite: Successful completion of "Principles of Construction Specification".
This course covers the following topics: responsibilities of a senior specifier; general conditions of the contract document – philosophy, impartiality, comprehensiveness, owner/contract agreement, shop drawings, guidelines; client/design consultants agreement – ACEC 31, RAIC 6, Guidelines and Schedules; construction liability insurance – claims, deductibles, estimates, taxes; risk insurance; national program administrators; surety bonds – security bid, performance bond, maintenance bond, holdback payment, CGDC documents; contract administration field service; legal terms; trends in court: legislation – Lien Act, Safety Act.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
30 hours Fee: $310.00
September 21 to November 23 • **SPEC 901**

AutoCAD

Introduction to CADD for Architects & Civil Engineers

Prerequisite: Minimum two years drafting experience.
An introduction to AutoCAD on AT compatible systems. Topics include: the operation of a graphics work station; the application of the points, line and arcs CADD functions; basic geometric construction elements, operation of a digitizer/mouse and plotter; establishing scales; setting line, plot, colour and text font; using menus, panning, zooming, filing and dimensioning, also to include the basic DOS functions, copying files onto diskette, restoring and deleting files from hard disk.
Mon. or Wed. 7 to 10 p.m. or
Sat. 9 a.m. to 1 p.m. Casa Loma Campus
36 hours Fee: $305.60
September 18 to December 11
September 20 to December 6
September 23 to November 18 • **CAD 951**

Advanced CADD for Architects and Civil Engineers

Prerequisite: CAD 951 — Introduction to CADD.
Advanced training for AutoCAD system.
Select a project from your discipline for CADD development. Topics studied include: file structure and maintenance, parts library, back-up procedures, selecting optimum commands, creating personal menus, merging files and editing text files, creating 3-D.
Tues. or Thurs. 7 to 10 p.m. Casa Loma Campus
36 hours Fee: $305.60
September 19 to December 5
September 21 to December 7 • **CAD 952**

Tool Design

Tool Design Concepts

Prerequisite: Tool & Die Maker with technical drawing knowledge.
This course is designed to introduce the student to the design of: drill jigs, milling fixtures, gauges, dies, progressive dies, draw dies, injection moulds, and assembly diecasting moulds.
Tues. 7 to 10 p.m. Casa Loma Campus
96 hours Fee: 158.60
September 19 to May 1 • **ENDR 905**

Heating/Air Conditioning

Warm Air Heating and Air Conditioning

Gain a background in system design and its application to residential warm air heating and air conditioning systems. There is the option to write the H.R.A. system design examination. Specific topics include: heat transfer, humidity and humidity control, heat loss and heat gain calculations using H.R.A. methods and manuals; elements of system design, including duct sizing, selecting and comparing systems, and an introduction to system balancing.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
72 hours Fee: $120.20
September 19 to December 7 • **HT 900**

Basic Electricity and Controls/ Heating and Air Conditioning

Provides a basic electrical and controls background for students entering the heating and air conditioning trades. Topics covered include: fundamentals of voltage, current and electrical resistance, Ohm's law and the law of electric power, series and parallel electrical circuits, electrical measurement and testing; electromagnetism and electromagnetic equipment, including relays, circuit breakers etc., introduction to alternating current, transformers, operation and testing of electric motors, electric wiring diagrams as applied to simple heating and cooling systems, the principles behind the operation of temperature controls, thermostats, limit controls, pressure controls, and simple heating and cooling control systems.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00
September 18 to November 27 • **HT 915**

High Efficiency Gas Furnaces and Boilers

Prerequisite: Gas Fitter II Licence.
This course is designed to give the student the necessary knowledge to install and service high efficiency furnaces. The areas of study are steady state and seasonal efficiency, application of retrofitting to improve seasonal efficiency, types of furnace and boiler designs to achieve semi and full condensing of the flue gases, principles and required control systems for induced draft firing, forced draft firing and pulse combustion, installation requirements for the major types of high efficiency furnaces, application, circuitry and settings of programmable thermostats, service and troubleshooting.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $53.00
November 6 to December 6 • **HT 922**

Gas Fitter II

Provides the necessary background to write the Fuel Safety Branch Gas Fitter II licence examination. Specific topics studied include: properties of natural gas, fundamentals of combustion; gas physics, including flow and pressure, gas meters and regulators, gas piping, gas venting, the atmospheric burner, principles of gas controls and control systems, installing and servicing gas conversion burners, analyzing flue gas and combustion efficiency, general appliance requirements, and a review of codes and regulations.
Mon. and Wed. 6 to 9 p.m. or 7 to 10 p.m.
September 18 to January 10 or
Tues. and Thurs. 6 to 9 p.m. or 7 to 10 p.m.
September 19 to January 4 Casa Loma Campus
90 hours Fee: $149.00 • **HT 907**

Gas Fitter I

Provides the necessary background to write the Fuel Safety Branch Gas Fitter I licence examination. Specific topics studied include: properties of gas flames, flame detection, flame safeguard system and terminology; fundamentals of controls (on-off, high-low-off, modulating-off), required C.G.A. valve train assemblies and components, limit controls and interlocks, programming flame safeguard controls, gas fired boilers; installing boilers and burners (piping, venting, and code requirements), analyzing flue gas, combustion and boiler efficiency, and an introduction to process gas heating equipment.
Mon. and Wed. 6:30 to 9:30 p.m.
September 18 to January 10 or
Tues. and Thurs. 6:30 to 9:30 p.m.
September 19 to January 4
Casa Loma Campus
90 hours Fee: $149.00 • **HT 910**

Oil Burner II

Provides the necessary background in trade theory and practice to write the Fuel Safety Branch Oil Burner II licence examination. Topics studied include: properties of fuel oil, theory of combustion, fuel oil firing systems, fuel pumps, nozzles, air handling components, ignition components, tanks and piping, combustion chambers and chamber materials, air and hot water temperature controls, combustion controls, control systems, servicing and installing equipment, analyzing flue gas and combustion efficiency, retro-fitting and upgrading existing systems, and a review of codes and regulations.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
90 hours Fee: $149.00
September19 to January 4 • **HT 913**

Air Conditioning Design I

Provides the basic theory and application of system design of air conditioning systems to H.R.A. standards. Topics covered include: the fundamentals of heat transfer, humidity and its control, heat gain and heat loss calculations using H.R.A. methods and manuals; the elements of system design and their application, including duct sizing, selecting and comparing equipment, an introduction to system balancing, and the applications of air conditioning equipment.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
72 hours Fee: $120.20
September 19 to December 7 • **AIR 900**

Air Conditioning Residential and Commercial

Prerequisite: Employment in the heating or air conditioning industry as a journeyman or equivalent.
Provides a fundamental background in the theory and practice of residential and small commercial air conditioning systems and equipment. Topics include: the fundamentals of refrigeration, compressors, condensors, evaporators, tubing and connections; standard operating procedures, including evacuating, charging and testing for leaks, electric motors, motor starters and overloads, electric and control circuits, testing circuits and troubleshooting, winter operation, selecting equipment, installation and start-up procedures, air problems and measurement, and conducting a service analysis.
Mon. and Wed. or Tues. and Thurs.
7 to 10 p.m. Casa Loma Campus
72 hours Fee: $120.20
September 18 to December 11
September 19 to December 7 • **AIR 905**

Pneumatic Controls
Prerequisite: Employment in the Heating and Air Conditioning industry as a journeyman or equivalent.
Course content: Introduction to pneumatic control circuits, typical applications to radiation, central fan heating, fan coil units, and year round air conditioning systems.
Mon. 7 to 10 p.m. Casa Loma Campus
30 hours Fee 53.00
September 18 to November 27 • AIR 907

Building Mechanical Systems Advanced Balancing Procedures
Prerequisite: Satisfactory completion of course AIR 900 or AIR 901 or equivalent.
This course is designed to provide advanced knowledge and techniques to those who are involved with balancing or adjusting air distribution systems. The course covers the following topics, air quantity, air changes, system pressure, air frictionc hart, air movement, balancing dampers, measuring instruments for duct systems and sizing ducts for proper air movement.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: 101.00
September 19 to November 23 • AIR 910

Plumbing

Plumbing Qualification
A refresher course in general plumbing theory to help prepare for writing the certificate of qualification examination. Due to the broad scope of the course, topics are not covered in great depth. The student should be familiar with trade terminology and practices.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **PLUM 902**

Plumbing Design and Installation
Prerequisite: Ontario Certificate of Qualification in Plumbing.
A comprehensive review of the areas that candidates for master's licences should be familiar with. Specific subjects covered: pertinent labour legislation, discounts, overhead and profit, material take-off, the provincial Plumbing Code, and considerable practice in the drawing of drain plans and stack elevations together with the sizing of the piping.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **PLUM 904**

Plumbing for the Home Owner
An introduction to pipe work involving copper, plastic and cast iron piping. To gain knowledge of faucet and water closet repairs and introduction to venting and rough-in pertaining to a residential building.
Mon. 6 to 9 p.m. Casa Loma Campus
30 hours Fee: $105.00 Material Fee: $10.00
September 18 to November 27 • **PLUM 907**

Propane

Propane Gas (Fitter S2)
This course provides the student with the necessary background in trade theory and practice to write the Fuel Safety Branch Prop Gas Fitter "S2" Licence examination.
Course Content: Properties of propane gas, basic requirements, for field approved appliances, propane piping and tubing requirements, review of ventilation and combustion air, general requirements for application storage and handling, cylinder filling, location and storage of propane tanks, accessories and equipment, transports, tank trucks and the transportation of propane, propane as an engine fuel, vaporizers, indirect and direct fired cylinder systems for highway mobile vehicles, basic domestic gas burner controls and heating systems, domestic hot water heaters.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campua
90 hours Fee: $149.00
September 18 to January 10 • **HT 919**

Propane (Plant Operator 3)
To provide the necessary knowledge on propane to write the Fuel Safety Branch Plant Operators Licence.
Course Content: Properties of propane safety procedures, filling of propane containers and propane powered vehicles of filling plant.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
6 hours Fee: $21.30
September 12 to 14 • **HT 921**

Appliance Servicing

Appliance Servicing Part I (Electrical Fundamentals and Ranges)
Provides a basic background in electrical theory and practice as applied to major appliances with the emphasis on electrical ranges. Topics covered include: the nature of electricity, basic electrical quantities, Ohm's Law and its application, electrical circuits, magnetism and electromagnetism, electrical circuitry and fault finding, motors, power and heating effects, electrical measuring instruments, various switching devices, and the theory and test procedures of conventional ranges.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **AP 903**

Appliance Servicing Part II (Domestic Refrigeration) *New*
Provides a basic background in the theory and practical repair of the following: domestic refrigerators, freezers, window air conditioners, evaporators, compressors, condensors, and electric motor controls. Other topics include: the compression system of refrigeration, refrigerants, liquid feed devices, defrosting methods, food preservation, evacuating and charging, conditioners, circuit tracing, fault finding, service and analysis.
Mon. and Wed. or Tues. and Thurs. 6 to 9 p.m.
Casa Loma Campus
60 hours Fee: $101.00
September 18 to November 27
September 19 to November 23 • **AP 904**

Appliance Servicing Part III (Laundry Equipment)
Prerequisite: AP 903 — Appliance Servicing Part I or equivalent.
Learn the theory and operation of automatic washers, dryers and dishwashers plus how to find faults, make repairs, trace circuits and conduct a service analysis.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **AP 905**

Microwave Ovens
Review of basic electricity including emphasis on: relays, tranformers, capacitors,. Introduction to basic solid state electronics including: diodes-varistors, S.C.R.s – surge resistors, triacs, transistors, magnetrons, high voltage circuitry, control circuitry, variable power, door interlocks, electromagnetic spectrum, properties of microwaves and their reaction with various materials, oven cavity construction, door construction, chokes and door seals, stirrers, turntable, blowers, safety procedures, service procedures, use of survey meters for leakage testing, basic microwave cooking.
Mon. and Wed. 7 to 10 p.m. Casa Loma Campus
24 hours Fee: $43.40
September 18 to October 16 • **AP 909**

Refrigeration

Refrigeration — Part I
Learn the fundamentals and principles of refrigeration, including: the compression system of refrigeration, properties of refrigerants, metering devices, expansion valves, evaporators, condensors, compressors, flow equipment, electric controls and control valves, lubrication, troubleshooting, demonstrations of silver brazing in the shop, evacuating and charging, plus other service tips.
Mon. and Wed.
September 18 to November 27
Tues. and Thurs.
September 19 to November 23
6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00 • **REF 900**

Refrigeration – Part II
Prercquisite: REF 900 — Refrigeration — Part I or equivalent experience.
After a review of the fundamentals, topics covered include: electricity as applied to basic circuits and components, defrosting methods, time clocks, compressor drives, test instruments and their use, piping, temperature and pressure control, applications of refrigeration, humidity control, cold storage, basic psychometric analysis, secondary refrigerants, liquid cooling, heating and cooling thermostats, trade safety; motor starting including relays, starters and contractors and motor overload protection.
Mon. and Wed. 6 to 9 p.m. Casa Loma Campus
90 hours Fee: $149.00
September 18 to January 10 • **REF 911**

Refrigeration – Part III
Prerequisite: REF 911 – Refrigeration – Part II. Covers the following topics, rooftop condensors, piping systems, chillers, heat pumps, symbols, starters and contractors, packaged units, humidifiers, dehumidifiers, electronic and curtain air cleaning equipment, odor control, load calculations, commercial air conditioning, psychometric analysis, selecting equipment, control circuitry, troubleshooting, safety, and an introduction to pneumatic systems.
Mon. and Wed. 6:30 to 9:30 p.m. Casa Loma Campus
90 hours Fee: $149.00
September 18 to January 10 • **REF 902**

Carpentry

Carpentry for the Homeowner — Basic
Learn to operate the common hand and power tools used at home plus carpentry methods and materials required to maintain your home or cottage.
Mon. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $80.40
September 18 to November 27 • **CAR 901**

Carpentry for the Journeyman
Prerequisite: Employment in the carpentry trade.
Course Content: This course covers roof framing, equal pitch, basic stair building and national residential building code. Approximately 20 hours classroom theory, 40 hours practical.
Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 20 to February 7 • **CAR 902**

Masonry

Bricklaying
Learn all about the tools, equipment and materials used by bricklayers as well as the types, sizes and characteristics of bricks. The types and preparation of mortars using various bonding agents in all weather are also covered as well as the layout of walls, pilasters and piers using various bonds.
Tues. and Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23 • **MAS 900**

Electrical

Electrical Apprentice Review
Designed for apprentices in their final term who expect to write the qualifying examination sometime within the year. Covers the theory, codes and equipment discussed throughout apprenticeship training.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $5.00
September 11 to November 20
November 29 to February 14 • **EL 900**

Hydro-Electric Power Commission Regulations (Master Electrician)
Prerequisite: Journeyman electrician.
Use of the Code Book (O.H.E.S.C.), application of regulations and tables, electrical installation calculations relevant to code regulations and tables, preparation for Master Electrician examination.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $10.00
October 3 to December 12 • **EL 902**

Electrical Construction and Maintenance I
Prerequisite: Grade 10 math or equivalent.
Topics covered include: Ohm's Law, series and combination circuits, two-wire distribution, line loss, power efficiency, wire calculations, batteries, magnetism, electromagnetism, induction, three-wire distribution, and the Hydro-Electric Power Commission Regulations.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $5.00
October 2 to December 11 • **EL 907**

Electrical Construction and Maintenance II
Prerequisite: EL 907 or equivalent.
Course Content: electromagnetism, induction, D.C. generators, generator set-up and operation, D.C. motor, motor operation and controls; Hydro-Electric Power Commission Regulations.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $5.00
October 3 to December 12 • **EL 908**

Electrical Construction and Maintenance III
Prerequisite: EL 908 — Electrical Construction and Maintenance II or equivalent.
Topics covered include: A.C. fundamentals, vectors, single-phase transformers, single-phase motors, three-phase motors, three-phase transformers, auto-transformers, and the Hydro-Electric Power Commission Regulations.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $5.00
October 3 to December 12 • **EL 909**

Programmable Controllers for Electricians
Prerequisite: EL 912 — Industrial Electronic Controls (Part III) or Journeyman Electrician or Fifth Term Electrical Apprentice.
This hands-on course is intended for Journeyman Electricians or senior apprentices and includes practical applications of programmable controllers, programming techniques, and troubleshooting. Theory includes such topics as: ladder diagram language, P.L.C. instruction summary, programming examples, documentation systems, installation methods and procedures, maintenance and testing, as well as protocol and interfacing techniques.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
48 hours Fee: $81.80
September 11 to November 8 • **EL 921**

Programmable Controllers — Part I
Prerequisite: Logic Course or equivalent technician/technologist diploma electrical/electronics.
Theory and practical shop work covering the following topics: application and uses of the P.L.C. in industry; review of various number codes used in the P.L.C.; selection of input and output modules; using computers to program the P.L.C.; on line/off line documentation; programming instructions including timers, counters and data manipulation; troubleshooting, system maintenance and installation; an introduction to analog applications. The above topics are taught on an IBM compatible computer using the ICOM PLC-2 language in conjunction with the PLC2/05 processor.
Tues. 6:30 to 9:30 p.m. Casa Loma Campus
30 hours Fee: $53.00 Materials: $10.00
September 26 to November 28 • **EL 922**

Programmable Controllers — Part II
Prerequisite: EL 922 or equivalent.
This course will introduce the student to the use of P.L.C.'s as a process controller in Industrial applications. Topics included are: a review of Part I; data manipulation; program control; data transfer instructions; file shifts; and analog interfacing.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
30 hours Fee: $53.00 Materials: $10.00
September 28 to November 30 • **EL 924**

Electrical Pre-Exam
Designed for journeymen seeking interprovincial standards and those referred by the ministry on provisional certificates. Covers the theory, codes and equipment discussed throughout apprenticeship training.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $5.00
September 11 to November 20
November 29 to February 14 • **EL 950**

Estimating for the Electrical Trade
Prerequisite: Journeyman electrician, fifth term apprentice or equivalent.
Topics covered include: plan analysis, takeoff procedure, transferring and pricing, labour units, installation only projects, adjustments for working conditions, cable pulls, pull boxes, labour cost variables, non-productive labour, incidental and direct job cost, and electric heating loads.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials $5.00
October 2 to December 11 • **EL 901**

Computer-Aided Electrical Estimating

Prerequisite: Journeyman and EL 901 or equivalent.
The course is designed to introduce the estimator to the use of an IBM computer and appropriate software for completing electrical estimates.
Topics covered include complete take offs, extensions, bid summary sheets, cost control, database update, and T & M billing.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
42 hours Fee: $72.20 Material $10.00
September 11 to December 18 • **EL 925**

Electrical Fundamentals –

Prerequisite: MATH 100.
Topics covered include: basic electrical concepts, simple D.C. circuits, power magnetism, electro-magnetism, magnetic circuits. D.C. & A.C. measuring instruments, electrical measurements, induction, capacity, alternating current, resistance, impedance, and power in A.C. circuits.
Mon. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials $10.00
September 25 to December 4 • **EL 905**

Industrial Electronic Controls (Part I)

Prerequisite: Journeyman electrician, fifth term apprentice or equivalent.
Theory and practical shop work covering the characteristics, operation and basic applications of semiconductor diodes, zener diodes, bipolar transistors, transistor biasing, phototransistors, field effect transistors. MOS-FET transistors, unijunction transistors, thyristors and thermistors.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $8.00
October 3 to December 12 • **EL 910**

Industrial Electronic Controls (Part II) EL911 offered in winter.

Industrial Electronic Controls (Part III)

Prerequisites: EL 911 – Industrial Electronic Controls (Part II) and a good knowledge of algebra.
Theory and practical shop work covering the following topics: an introduction to digital techniques, number systems, semiconductor devices for digital circuits, the operation and application of basic logic gates, bulean algebra, digital integrated circuits, and the operation and application of flip flops, counters, timing circuits, shift registers, decoders and encoders.
Mon. and Wed. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee $101.00 Materials: $5.00
November 13 to January 29 • **EL 912**

Electrical Blueprint Reading

Prerequisite: Electrical apprentice, electrician or anyone employed in the electrical construction and maintenance industry.
Topics covered include: printing, architect's scale, residential drawings, construction drawings, architectural drawings, structural drawings, concrete drawings, mechanical drawings, electrical drawings, layout drawings, as-built drawings, schematic drawings, specifications, material take-off, material order, time sheets, inspection and equipment take-off.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00 Materials: $15.00
October 3 to December 12 • **ELDR 612X**

Millwright

Mechanical Maintenance — Part I

Designed specifically for students interested in the basics of millwrighting, such as rigging, basic metallurgy, drilling, lathe turning, milling, grinding, and levelling machinery.
Tues. and Thurs. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00
October 3 to December 7 • **MILL 900A**

Mechanical Maintenance — Part III

Designed specifically for those interested in fluid power. Instruction, lectures, demonstrations and assignments are given in the following subjects: electrical control, basic hydraulic and pneumatic circuitry, design, components, pumps, valves, cylinders, gas laws, plus installing and maintaining compressors.
Practical work involves piping and wiring, pneumatic and hydraulic test panels.
Mon. to Wed. 6 to 9 p.m. Casa Loma Campus
60 hours Fee: $101.00
October 2 to December 11 • **MILL 900C**

Welding

Welding Theory I

An introduction to the theoretical aspects of shielded metal arc welding (SMAW), oxy-acetylene welding (OAW), and oxy-fuel gas flame cutting (OFC).
Topics covered include: safety in SMAW, OAW, and OFC operations, the basic principles of different processes, operating different types of equipment, weldable/cuttable metals, welding techniques, current types, polarity, cutting gases used, joint design, preparation and fit-up, control of distortion, etc.
Tues. 7 to 9 p.m. Casa Loma Campus
20 hours Fee: $37.00
September 19 to November 21
January 9 to March 13 • **WELD 920**

Welding I — General

An introduction to the basic principles involved in both the shielded metal arc welding (SMAW) and oxy-acetylene (OAW) processes. Learn oxy-acetylene fusion welding of tee, lap, corner, and butt joints in the flat and horizontal positions. Also learn shielded metal arc welding of tee and lap joints in the flat and horizontal positions with E6010/11 and E6013 electrodes using single and multiple pass beads and weaves. Other topics covered include: safety precautions with SMAW and OAW equipment, cutting with manual oxy-acetylene equipment, and braze welding tee and lap joints in the flat position.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 18 to February 19 • **WELD 922**

Welding II — General

Prerequisite: WELD 922 — Welding I — General or equivalent.
Builds on the work done in Welding I and introduces more advanced techniques using the shielded metal arc welding (SMAW) and oxy-acetylene welding (OAW) processes. Topics covered include: a review of WELD 922; oxy-acetylene welding of tee, lap, corner and butt joints in the vertical up position and cutting with manual oxy-acetylene equipment; braze welding of tee, lap and butt joints in the vertical up position; shielded metal arc welding of tee and lap joints in the horizontal and vertical up positions using multi-pass beads and weaves; welding corner, tee, lap and butt joints in the vertical down position on medium and light gauge mild steel. Electrodes used include E6010/11, E6013 and E7018.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 20 to February 14 • **WELD 923**

Welding III — General

Prerequisites: WELD 922 — Welding I — General and WELD 923 — Welding II — General or equivalent experience.
Further develop and refine all-position welding skills using the shielded metal arc welding (SMAW) process. Learn shielded metal arc welding of tee, lap, and corner joints in all positions with the emphasis on multi-pass welding techniques using E6010/11 and E7018 electrodes. Other topics include: an introduction to edge preparation, and the fit-up and welding of single-vee butt joints in the flat position.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00
September 21 to February 15 • **WELD 924**

MCCR Certification I — (Plate)

Prerequisite: WELD 922, WELD 923 and WELD 924 or equivalent experience. A pre-entry interview is required.
Designed to improve welding skills of candidates preparing for a flat and horizontal position plate welding test to standards required by the Ministry of Consumer and Commercial Relations (MCCR) for pressure welding. Topics covered include: a review of WELD 924, edge preparation, fit-up and welding of open root single-vee butt joints in flat (1G) and horizontal (2G) positions to MCCR specifications using E6010/11 and E7018 electrodes, and guided bend testing of completed welds.
Note: Arrangements can be made to have the final practical test inspected by the MCCR. An additional fee is involved.
Mon. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 18 to February 19 • **WELD 925**

Welding and Fabrication

The welding and fabrication courses outlined below are designed to develop specific practical welding or fitting skills. Appropriate theory specifically related to the use of equipment and the techniques involved in the development of these skills are included in each course. For those interested only in the theoretical aspects of welding and flame cutting, the two courses Welding Theory I and Welding Theory II are offered.

All successfully completed courses count as credits towards the various certificates listed below.

Welding Tests

The Metal Fabrication Department operates a testing program as a service to welders wishing to upgrade their qualifications by taking tests leading to certification. As an additional service, practice sessions prior to testing can be arranged if required. All enquiries should be directed to: the the Metal Fabrication Department, 944-4348

Gas Metal Arc Welding I

Prerequisite: WELD 922 – Welding I – General and WELD 923 – Welding II – General or equivalent experience.
An introduction to the principles of the gas metal arc welding (GMAW) process. Topics covered include: safety in gas metal arc welding; welding lap, tee and corner joints in all positions with solid wires; welding lap, tee and corner joints in flat, horizontal and vertical positions with flux-coated wire; flame curing plates; and preparing and welding single-vee butt joints in the flat position with solid wire.
Tues. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee $101.00
September 19 to February 13 • **WELD 934**

Gas Metal Arc Welding II

To be offered March 1990 • **WELD 935**

Gas Tungsten Arc Welding I

Prerequisite: WELD 922 — Welding I – General and WELD 923 – Welding II – General or equivalent experience.
An introduction to the basic principles of the gas tungsten arc welding (GTAW) process. Topics covered include: safety in gas tungsten arc welding; welding low carbon steel, aluminum and stainless steel lap and tee joints in flat and horizontal positions, as well as corner and butt joints in the flat position.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
60 hours Fee: $101.00
September 20 – February 14 • **WELD 937**

Welding Fabrication I

Prerequisite: WELD 922 — Welding I — General or equivalent experience.
An introduction to the basic principles of layout and fitting as applied to miscellaneous metal fabrications. Topics covered include: a review of WELD 922, safety in welding and metal fabrication; identifying and selecting metals and structural shapes; the fundamentals of design of weldments; the safe use of hand tools and power operated fabrication machinery such as cut-off saws, band saws and drill presses; layout and fabrication of simple metal projects from shop drawings using materials such as angle iron, channel, pipe, flat bar and plate, plus the manual flame cutting and welding of fabricated projects using the shielded metal arc and gas metal arc welding processes.
Tues. and Thurs. 6:30 to 9:30 p.m.
Casa Loma Campus
60 hours Fee: $101.00
September 19 to November 23
January 9 to March 15 • **WELD 940**

Non-Destructive Testing

The following Non-Destructive Testing courses are offered in cooperation with the NDE Institute of Canada. Classes are from 6:30 to 9:30 p.m. For more information, call 944-4348 or Mr. D. Mihalik, (416) 871-2100.

Ultrasonics Level I

The basics of ultrasonics including the theory of ultrasonic testing and its practical applications. Classroom training for certification is in accordance with the Canadian General Standards Board (48-GP-7M). Topics covered include: testing philosophy, test principles, applications and capabilities of tests, equipment, testing techniques, and calibrating equipment.
Wed. 6:30 to 9:30 p.m. Casa Loma Campus
42 hours Fee: $225.00
September 20 to December 20 • **TEST 900**

Liquid Penetrant & Magnetic Particle Inspection (LPI/MPI) Levels I and II

Covers the theory and practice of liquid penetrant and magnetic particle inspection. The course meets the classroom training requirements for levels I and II certification as stipulated in CGSB standards 48-GP-9M and 48-GP-8M respectively. Topics covered include: principles and methods of liquid penetrant testing, selecting the penetrant test method and equipment, evaluating liquid penetrant indications, principles of magnets and magnetic fields, magnetization by means of electric currents, types of equipment and inspection materials, selecting the proper type of magnetization, principles of demagnetization, type of discontinuities located by magnetic particle testing, indications and interpreting the test results.
Thurs. 6:30 to 9:30 p.m. Casa Loma Campus
48 hours Fee: $300.00
September 21 to January 18 • **TEST 907**

Coatings Technology

Chemical Technician — Coating

The following courses are approved and certified jointly by George Brown College and the Toronto Society for Coatings Technology. The courses are designed to be taken separately. Credits may be accumulated towards the Chemical Technician Coatings certificate.
For more information about the Coatings Technology program, call the chairperson, Mathematics and Science, 867-2196.

Resins - "A" (lab)

Prerequisite: COAT-204X or equivalent.
Quality control, curing, properties of unsaturated polyesters, alkyds & epoxy resins. (Enrolment limited.)
Mon. 7 to 10 p.m. St. James Campus
45 hours Fee: $77.00
September 18 to January 15 • **COAT 214X**

Coatings Laboratory

Prerequisite: COAT 100 or equivalent.
Course Content: Quality control of raw materials, preparation and evaluation of lacquers, varnishes, solvent and waterborne coatings, report writing. Enrolment limited.
Tues. 6 to 10 p.m. St. James Campus
60 hours Fee: $101.00
September 19 to January 2 • **COAT 101X**

Organic Coatings

Raw materials: oils, resins, solvents, driers, additives, prime and extender pigments. Formulations and properties of organic coatings: principles of formulation; film formation; dispersion; testing; lacquers, varnishes, trade sales, industrial, corrosion, chemical resistant, powder, high solids, water-borne coatings; preparation and application methods.
Wed. 7 to 10 p.m. St. James Campus
60 hours Fee: $101.00
September 6 to January 24 • **COAT 100X**

Resins - "C" (lab)

Prerequisite: COAT-205X or equivalent.
Quality control, curing, film formation, properties of: - lacquer, hydrocarbon, phenolic, amino, silicone and water-borne resins. (Enrolment limited)
Thurs. 7 to 10 p.m. St. James Campus
45 hours Fee: $77.00
September 21 to January 4 • **COAT 215X**

Resins - "C"

A study of the raw materials, manufacturing methods, chemistry, film formation, properties & uses of lacquer, hydrocarbon, phenolic, amino, silicone and water-borne resins in coatings.
Fri. 7 to 10 p.m. St. James Campus
45 hours Fee: $77.00
September 22 to January 5 • **COAT 205X**

Certificate in Digital and Microprocessor Techniques

The Electro-Mechanical Department is offering a part-time certificate program in Digital and Microprocessor Techniques.
The program comprises six compulsory courses and three electives and is designed for those who wish to acquire a working knowledge of microprocessors. It is of particular interest to electronics technicians. However, anyone holding a Secondary School Graduation Diploma with grade 12 Math and English (or equivalent) with a background in basic electronics and transistors can register.
Students are expected to complete the program in three years. Students may apply for credits for program subjects taken at George Brown College or other institutions. For students proceeding to a certificate, the College grading system will apply.

Interviews
Students enrolling in the program initially and seeking exemptions must be interviewed by the Electronics Department at St. James Campus, 200 King St. E.

FALL 89
Monday, Sept. 11, 6 to 8 p.m.
Monday, Sept. 25, 6 to 8 p.m.

WINTER 1990
Wednesday, Jan 3, 6 to 8 p.m.
Wednesday, Jan. 10, 6 to 8 p.m.
Students who are unable to attend on the above-mentioned dates due to extenuating circumstances, may request an interview to be held during the following times:

FALL 89
Sept. 25 to 29, 2 to 3 p.m.

WINTER 1990
Jan. 8 to 12, 2 to 3 p.m.
To make an appointment, please call 867-2125 or 867-2123
Course fees do not include text books.

Optional Lab Fees
In some courses, it may be beneficial for the student to borrow the College training kit for in-home practice for the duration of the course. In this case, an optional lab fee of $175.00 is charged and will be refunded less a user fee of $35.00 if the kit is returned in working condition.

Total number of courses:
6 Compulsory; 3 Electives

Compulsory Courses:
ELTC 925 – Digital Principles
ELTC 926 – Digital Principles Advanced
ELTC 927 – Troubleshooting Digital Circuits
ELTC 928 – Introduction to Microprocessors and Microcomputers
ELTC 929 – Principles of Microcomputer Interfacing
ELTC 930 – Troubleshooting Microprocessor-based Systems

Elective Courses:
ELTC 931 – Interfacing Techniques Advanced
ELTC 932 – Microcomputer Systems Software
ELTC 933 – Microcomputers in the Analogue World
ELTC 934 – Microcomputers and Process Control
ELTC 935 – Microcomputers in Industrial Control
ELTC 936 – Microcomputers and Data Communications
ELTC 940 – Introduction to MC 68000 Microprocessors
ELTC 941 – Floppy disk drives; Theory and Maintenance
ELTC 942 – Introduction to Computer Aided Design (Electronics)
ELTC 943 – Introduction to Artificial Intelligence (AI)
The electives are offered at the discretion of the Electronics Department.

Electronics

Electronic Fundamentals (Part II)

Prerequisite: ELTC 939 — Electronic Fundamentals and Instrumentation Applications (Part I) or equivalent.
Topics covered include: transducers, vacuum tube operation, basic power supplies, electronic meters, cathode ray tubes, oscilloscopes, power transfer, impedance matching, atomic structure of semi-conductors, diode junction, avalanche and Zener breakdown, junction transistors, transistor amplifier coupling methods, power amplifiers, transistor oscillators, plus FET and UJT semiconductor data sheets.
Tues. and Thurs. 6:30 to 9:30 p.m.
St. James Campus
60 hours Fee: $101.00 Material Fee: $20.00
Laboratory Fee: $20.00
October 3 to December 7 • **ELTC 901**

Video Tape Recorders Theory and Maintenance

Prerequisite: Fundamental knowledge of television theory. or equivalent.
A discussion of the principles of video tape recorders (VTR) and video cassette recorders (VCR), including their basic requirements and limitations to conform to television standards. Other topics covered include: block diagrams and circuit analysis of the modulation channel, demodulation channel, colour signal recording principles; the servo operations of the head drum and capstan in normal, slow motion and freeze modes, control section functions, transport mechanism, principles of adjustment and operation, time base correction (TBC), editing and time code applications, types and characteristics of magnetic tape, maintenance procedures, performance specifications and evaluation testing.
Mon. 6:30 to 9:30 p.m. St. James Campus
60 hours Fee: $101.00 Material Fee: $10.00
October 16 to March 12 • **ELTC 912**

Fibre Optics in Communication

Topics covered include: the optical fibre, types of fibre and cables, propagation through fibres, mode studies within fibres, numerical aperture, attenuation, bandwidth, joining fibres, cleaving, polishing and cut end, couplers and connectors, splicing fibres, optical time domain reflectometer, electrical optical sources, LED and LASED diodes, coupling, power output, frequency characteristics, system and circuit considerations, and the types, advantages, applications and coupling of photo detectors.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 11 to December 13 • **ELTC 924**

Digital Principles

Prerequisite: Basic Electronics and Transistor Theory or equivalent.
Theory is reinforced through practical laboratory experiments. Topics covered include: binary systems and codes, gates, flip flops, counters, serial and parallel registers, encoders and decoders.
Equivalents: ELTC 906 and ELTC 920.
Mon. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 16 to December 18 • **ELTC 925**

Digital Principles (Advanced)

Prerequisite: ELTC 925 — Digital Principles or equivalent.
Theory is reinforced through practical laboratory experiments. Topics covered include: wired or open collector, tri-state logic, multiplexing, demultiplexing, digital comparators, adders, memory circuits, MSI and LSI, programmable logic and gate arrays.
Equivalent: ELTC 920.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 10 to December 12 • **ELTC 926**

Troubleshooting Digital Circuits

Prerequisites: ELTC 925 — Digital Principles and ELTC 926 — Digital Principles (Advanced) or equivalent.
Theory is reinforced through practical laboratory experiments and troubleshooting exercises on digital systems. Topics covered include: manufacturers' specifications for TTL, CMOS and ECL, the use of logic probes, current probes, and oscilloscopes.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 5 to December 7 • **ELTC 927**

Introduction to Microprocessors and Microcomputers

Prerequisites: ELTC 926 — Digital Principles (Advanced) or equivalent.
Theory is reinforced through practical laboratory experiments. Topics covered include: microprocessor architecture, machine language programming, instruction sets, addressing modes, and I/O programming, all based on the MC6800 MPU.
For an optional lab fee deposit of $150.00, students can have a MPU trainer for use at home for the duration of the course. A refund of $120.00 is given if the trainer is returned in working order.
Equivalents: ELTC 906A, ELTC 917, ELTC 921. Certification program.
Thurs. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 10 to December 12 • **ELTC 928**

Principles of Microcomputer Interfacing

Prerequisite: ELTC 928 — Introduction to Microprocessors and Microcomputers or equivalent.
Theory is reinforced through practical laboratory experiments. Topics covered include: components and tasks of an interface, programmed I/O, principles of program interrupt, display multiplexing, keyboard scanning, writing a simple monitor program, and ASC II keyboards.
Equivalent: ELTC 918.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 11 to December 13 • **ELTC 929**

Troubleshooting Microprocessor-based Systems

Prerequisites: ELTC 927 — Troubleshooting Digital Circuits and ELTC 929 — Principles of Microcomputer Interfacing or equivalent.
Includes practical troubleshooting exercises on the lab microcomputers. Other topics covered include: static testing techniques with the processor halted, dynamic testing techniques with the processor running, in-circuit emulation, logic analyzers, and signature analysis.
Equivalent: None.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 11 to December 13 • **ELTC 930**

Interfacing Techniques (Advanced)

Prerequisite: ELTC 929 — Principles of Microcomputer Interfacing or equivalent.
Theory is reinforced through practical laboratory experiments. Topics covered include: interfacing for video terminals, cassette tape, floppy disks and printers, and interface standards.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 10 to December 12 • **ELTC 931**

Microcomputer Systems Software

Prerequisite: ELTC 931 — Interfacing Techniques (Advanced) or equivalent.
Theory is reinforced through practical laboratory experiments. Topics covered include: introduction to the MS-DOS operating system; the internal commands; formatting and copying of disks; control characters; system and non-system disks; batch processing; utility and application programs such as word processing, spreadsheets, database and graphs.
Tues. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 10 to December 12 • **ELTC 932**

Electronic Fundamentals and Instrumentation Applications (Part I)

Prerequisite: Ontario grade 10 or equivalent, with level 4 in Mathematics and English.
Topics covered include: energy, electricity, resistors and conductors, cells and batteries, voltage, current and resistance, Ohm's Law, electric power, D.C. circuits, Kirchoff's Law, capacitors, electromagnets, inductors and induction, Lenz's Law, A.C. source, vectors, reactance, impedance, resonance, A.C. power, electric meters, transformers, resonant circuits, A.C. circuits, the wheatstone bridge, potentiometric circuits, thermo-electricity, transducers, strain gauges, variable inductors, variable reluctance, variable capacitance, linear variable transformers, current to air and voltage to air transducers.
Mon. and Wed. 6:30 to 9:30 p.m.
St. James Campus
84 hours Fee: $139.40 Materials $20.00
Laboratory Fee: $20.00
September 13 to December 20 • **ELTC 939**

Introduction to MC 68000 Series Microprocessors

Prerequisite: ELTC 928 — Introduction to Microprocessors or equivalent.
Topics covered include: MC 68000 architecture; data sheets; addressing modes; writing and evaluating simple programs; interrupts; delay routines. Theory is reinforced through practical laboratory experiments.
Wed. 6:30 to 9:30 p.m. St. James Campus
30 hours Fee: $53.00 Material Fee: $30.00
October 11 to December 13 • **ELTC 940**

Floppy Disk Drives; Theory and Maintenance

Prerequisite: ELTC 931 — Interfacing Techniques (Advanced) or equivalent.
Topics covered include: basic specifications; electrical interface; physical interface; theory of operation; maintenance; diagnostic techniques; adjustments and alignment procedures. Theory is reinforced by practical laboratory experiments.

Sheet Metal

Sheet Metal – Phase I

Covers the following topics in both layout and shop practice: rectangular ducts, fish lock collars, black ends, duct elbows, duct offsets, roof ventilators, and both three and five-piece elbows.
Mon. or Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
October 2 to February 28
October 4 to February 21 • **SM 908**

Sheet Metal – Phase II

Covers the following topics in sheet metal layout and practice: drop-cheek elbow, transition duct offsets, horizontal and vertical branches, and conical tees both 90 degrees and 45 degrees on centre.
Tues. or Wed. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
October 3 to February 20
October 4 to February 21 • **SM 909**

Sheet Metal – Phase III

Covers the following techniques: square to round on centre – sloping base and sloping top, square to round off centre – sloping base and sloping top, square to round three piece 90 degrees – on centre and off centre, Y branch – round main to square branch pipes, Y branch – flat on one side, cylindrical pipe intersecting a conical pipe – off centre, cylindrical tapered 90 degrees elbow – off centre, and streamlined Y branch – two branch and three branch pipes.
Wed. or Thurs. 7 to 10 p.m. Casa Loma Campus
60 hours Fee: $101.00
October 4 to February 21
October 5 to February 22 • **SM 910**

Sheet Metal Pattern Drafting

An introduction to the basic principles of pattern drafting required by an apprentice. Using the triangular method, learn to make the following: regular and irregular tapers, square to round and other transition pieces, tapered elbows of different sections, streamlined fittings, and double and multiple branches of different sections.
Tues. 7 to 10 p.m. Casa Loma Campus
30 hours Fee: $53.00
October 3 to December 5 • **SM 911**

Stationary Engineering

The Stationary Engineering courses are divided into modules which cover the material needed to write the ministry examinations for accreditation towards a certificate. However, enrolment in any of these courses does not automatically entitle the student to write the ministry examinations. It is the responsibility of the student to determine eligibility with the Ministry of Colleges and Universities. Additional modules are offered in the winter and spring terms.

Driver Training

Professional Driver Improvement Course

Techniques and strategies for commercial straight truck and tractor trailer drivers to assist them in preventing collisions. This series of lectures is designed for professionals in the transportation, education and safety fields.
100 Cherry St.
8 hours Fee: $41.60
For more information about this course call C. Wengle at 867-2050.
Dates: Continuous • **TRAN 905**

Dual Air Brake System

Provides transport drivers with a working knowledge of a dual air brake system. This course is useful for the proposed mandatory air brake endorsement introduced to all holders of Ontario Classified Drivers Licences.
The following topics are covered in the eight sessions:
Braking Systems
– Introduction, Part I — Single Air
– Air Brake System, Part II — Dual Air
– Air Brake System, Part III — Troubleshooting
100 Cherry St.
10 hours Fee: $62.40
For more information about this course call C. Wengle at 867-2050
Dates: Continuous • **TRAN 906**

Driver Instructor Education Course

This course is conducted in accordance with the regulations established by the Ministry of Transportation and Communications which govern the licensing of driving instructors.
Prerequisite: Applicants must first receive authorization from a Ministry of Transportation and Communication Driver Examination Centre.
130 Hours (90 classroom hours, 40 in-car hours)
Fee: $889.00
Evening Course/Day Course
September 12 to December 21
For more information please contact the Industrial Training Division at 867-2273

Tractor Trailer Training

Prerequisite: Ontario "D" Licence, heavy straight truck experience.
Trains the student to operate tractor trailer units with multi-range transmissions under varying load conditions. Hands-on experience with various tractor trailer units is included. Other topics discussed are: vehicle inspection, air brakes, coupling and uncoupling the tractor trailer combination, backing manoeuvres and driving in light and heavy traffic.
Sat. 8 a.m. to 6 p.m. 100 Cherry Street
60 hours Fee: $1298.80 Material Fee: $100.00
For more information about this course call C. Wengle at 867-2050.

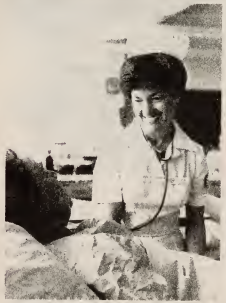
Health Sciences



Registered Nurse Critical Care Program

The Critical Care Nursing Program is designed to prepare the Registered Nurse to provide competent care to critically ill adults. The program is organized into two phases each consisting of a theoretical and clinical component.
The focus in Phase I is on learning core concepts of Critical Care Nursing through the study of stable, critically ill patients. During Phase II, students are expected to build upon core concepts and focus on unstable, critically ill patients suffering from complex, multisystem problems.
Graduates from the Critical Care Program receive a Certificate in Critical Care Nursing.

Admission Requirements

1. Current certificate of competence, College of Nurses of Ontario
   OR
   Eligibility for registration in Ontario obtained by contacting the College of Nurses of Ontario: (416) 928-0900.
2. A minimum of one year of current nursing experience in an active medical/surgical unit.
3. Completed medical.
4. B.C.L.S. (Heart & Stroke Foundation).
5. Reference from most recent unit manager would be of value.
6. Attendance at an Information/Selection session.

To apply, please contact:
Mrs. Nazlin Kassam
Critical Care Nursing Program
George Brown College
Box 1015, Station B
Toronto, Ontario
M5T 2T9

Telephone: (416) 867-2345

Start Dates

The fulltime program is offered twice a year:
September to December (16 weeks)
February to June (16 weeks)
The part time program begins each September. Students must successfully complete Phase I Theory and Clinical Practicum to be eligible for entry into Phase II.
The theory component of the part time program is offered one day a week between September and May. Students are also required to complete 3 separate weeks of clinical practicum. Dates of clinical practicum are announced early in September.
Clinical practice is normally scheduled in a metro Toronto critical care setting. Specific clinical arrangements for hospitals outside of the metro area and for those hospitals wishing to sponsor students for theory courses may be made by contacting the College. For further information, please call Mrs. Nazlin Kassim, 867-2345.
Note: Phase I Courses are taught as an integrated program and students are therefore asked to register for all four courses at the same time.

Phase I

Critical Care Nursing: Theory & Labs General

This course provides core nursing theory and skills essential in caring for a stable, critically ill patient. Content focuses on a holistic approach emphasizing that interventions in one system produce effects in related systems. Nursing skills are practised in classroom and clinical settings.
Theory includes:
- Physical examination: Theory and Labs
- Nursing process
- Anatomy &Physiology of major systems
- Cardiac monitoring and electrophysiology
- Ventilators
- Arterial pressure monitoring

Skill development includes:
- Venipuncture/IV's
- Insertion of N/G tubes
- ICP monitoring
- ABG interpretation
- recording a 12 lead ECG
- Chest physio techniques, etc.

50 hours • **CCN 400X**

Critical Care Nursing: Pathotherapeutics

This course covers content relating to pathology and pathophysiology, assessment, diagnostic and therapeutic modalities, and medical and nursing management. Core concepts of biodynamics, stress, adaptation and deviations in relation to the vital systems are emphasized.
Theory includes:
- Pathophysiology of selected diseases e.g. ARDS, pulmonary edema/embolus, flail chest, intracranial bleed, head and spinal cord injury, atherosclerosis and myocardial infarctions, GI bleeds, pancreatitis, etc.
- Establishing and maintaining an airway
- Care of ventilated and pavulonized patients
- Interpretation of basic arrhythmias

45 hours • **CCN 401X**

Nursing Issues & Values

This course has two focuses: behaviour and value systems. The course explores and analyzes communication techniques and emphasizes listening skills, nonverbal cues and assertiveness. Opportunities to practise these skills are provided in the classroom setting.
In addition, students examine ethical and moral issues and their implications in current nursing practice. Content also introduces relevant law and issue of truth, confidentiality and consent.
10 hours • **HUMN 402X**

Critical Care Nursing: Practicum - General

This course provides the opportunity to apply theory and skills obtained in CCN 400 and CCN 401 in a clinical setting. Supervised care is given to patients selected for problems commonly found in these units, and whose condition is relatively stable. Post conferences facilitate expansion of knowledge through sharing, and practise of leadership and teaching skills.
Observational experiences in diagnostic and surgical procedures are also planned.
105 hours • **CNN 402X**

Phase II

Critical Care Nursing: Theory - Advanced

The focus in this course is on the development of the knowledge and skills required to provide competent care for unstable, critically ill patients with multisystem problems. Core concepts remain the same but are explored in greater depth.
Theory includes:
- Hemodynamic monitoring
- Vascular conditions, e.g. abdominal aortic aneurysm & hypertension
- ACB and valvular repair
- Endocrine disorders, e.g. diabetic vs. nonketotic, hyperosmolar coma, adrenal crisis
- Immune system and infections in the ICU
- Shock
- Renal failure
- Advanced arrhythmias & 12 lead ECG interpretation
- Mock arrest and defibrillation

100 hours • **CNN 403X**

R.N. Perinatal Intensive Care Nursing

Prerequisites: Current certificate of competence, College of Nurses of Ontario; out-of-province students must be eligible for registration in Ontario; current nursing experience in the area of perinatology (i.e. obstetrics, nursery, N.I.C.U.) is an advantage, B.C.L.S. (Heart & Stroke Foundation), medical; brief resume; reference letter from current head nurse/supervisor, information/ session.
This program prepares the registered nurse to provide comprehensive care to critically ill newborns in an intensive care setting and to provide support and education to their families.
Theory includes:
- current concepts of perinatal nursing and high risk pregnancy
- care required prior to and during transportation of the newborn
- intervention available to critically ill infants with specific neonatal problems (genetic, congenital, respiratory)
- emotional care to the family of the high risk newborn and to the health care provider

Practicum includes:
- participant observation in a high risk labour and delivery unit
- total care of the critically ill newborn including assisted ventilatory care
- use of advanced monitoring and diagnostic equipment
- operating room observation with pre- and post-op care
- blood sampling and intravenous insertion experience (according to hospital policies)
- participation with the transport team
- laboratory and x-ray interpretation
- care of the family of the critically ill infant

Clinical practice with critically ill neonates is given in the Neonatal Intensive Care Unit at The Hospital for Sick Children.
A certificate is awarded for successful completion of all four courses of the program (i.e. PER 400X, PER 401X, PER 402X, PER 403X).
The program is also offered on a full-time basis, starting in September and February. For more information and interview dates, call Heather Urquhart at 867-2351 (2310). • **NU 406**

Perinatal Nursing Theory

This course provides a basic introduction to the field of perinatal and neonatal nursing.
Perinatal Nursing Theory is designed to cover: management of high risk pregnancies; embryology; transition to extrauterine life; neonatal resuscitation; neonatal physiology, and legal and ethical issues.

R.N. Rehabilitation Nursing

Prerequisites: Current certificate of competence, R.N. and R.N.A.) College of Nurses of Ontario, and one year of nursing experience.
This course is designed to provide the R.N. and R.N.A.with the basic skills and knowledge needed to care for physically disabled individuals or those with long-term health care needs.
To be offered Winter 1990.

R.N. Occupational Health Nursing

The Collaborative Community College Program for Occupational Health Nurses

Prerequisites: Current Ontario certificate of competence and one year of accumulated experience in nursing within the last five years. Preference is given to nurses currently enrolled in the Occupational Health Nurses Program and employed in occupational health nursing. For more information call Jackie Salmona at 867-2320 • **NU 408**

This academic year, George Brown College is scheduled to offer the following course:

Statistics and Epidemiology

Course Content: This course stresses utilization of the research process. Emphasis is on practical rather than theoretical considerations. Content centres around basic statistics which can be used to interpret and discuss the validity of statistical studies and/or to carry out basic statistical research in the occupational health field.
Wed. 6 to 9 p.m. Nightingale Campus

Added Skills

Body Systems Update: Conditions, Tests, Procedures

Prerequisite: R.N.
This course is designed to provide the Registered Nurse with a comprehensive review of the body's major systems: Cardiovascular, Respiratory, Renal, Endocrine and Neurological. Course content includes:
- Review of Anatomy and Physiology of above systems
- Fluids and Electrolytes
- Arterial blood gases
- Management of patients with the following conditions: diabetic and nonketotic hyperosmolar coma, hypercalcemia, myocardial infarction, tracheostomies, airways, fluid and electrolyte imbalances
- Interpretation of arterial blood gases, CBC, PT, PTT, electrolytes
- Nursing care of patients undergoing diagnostic tests such as CT scans, lung scans, magnetic resonance imaging, angiograms
- Discussion of Hickman and Porto Cath lines.

Tues. 6 to 9 p.m. Nightingale Campus
36 hours Fee: $62.60
September 19 to December 5 • **NURS 951**

AIDS and the Nursing Profession

Prerequisite: R.N. or R.N.A.
This course is designed to assist the R.N. and R.N.A. in caring for the patient with a diagnosis of AIDS, ARC, or HIV sero-positive. The nurse further develops pre-existing psycho-social skills in dealing with families and friends of AIDS patients.

CITY CPR CENTRE

George Brown The City College

You are faced with a life-threatening situation Someone is suffering from a heart attack, drowning, electrocution, or accident. Are you prepared? The City C.P.R. Centre offers a variety of C.P.R. and First Aid courses to meet the needs of the general public and helping professions. Invest as little as 4 hours to buy some peace of mind.

For information about any of our C.P.R./First Aid courses please call Sheryl Wallis at 867-2350.
Students must register at least one week prior to the start date of the course.
All of the courses involve some degree of physical contact with fellow students.
All C.P.R. and First Aid courses result in certification from the Heart and Stroke Foundation of Ontario and/or Canadian Red Cross.

General Public

Infant and Child CPR

Developed in collaboration with the Poison Information Center and Family Information Center of The Hospital for Sick Children. Children and accidents seem to go together. That's why we offer courses in Infant/Child C.P.R.
Learn: C.P.R. techniques for infants and children — child safety — poison prevention — how to child-proof your environment — ways to use community emergency resources — and more!!

Dental Technology

Dental Technology Certificate Programs

George Brown College is pleased to announce a new series of evening programs in dental technology. The programs include:
— Certificate in Partial Dentures
— Certificate in Full Dentures
— Certificate in Orthodontics
— Certificate in Crown & Bridge and Ceramics
Each program is comprised of a number of required courses plus a set of elective courses. The electives determine individual certificates.

Required Courses:
Language and Communication ENG 106X
SBM 300X
Oro-Facial Anatomy ANAT 102X

Electives:
Complete Dentures: Part I
Complete Dentures: Part II
Orthodontics: Part I

Introduction to Crown & Bridge and Ceramics: Part I
Introduction to Crown & Bridge and Ceramics: Part II
Partial Dentures: Part I
Partial Dentures: Part II

The programs are designed to upgrade the skills and knowledge of people currently working in the field. Successful graduates of the Certificate programs may want to continue their training by applying to take the full-time Diploma program in Dental Technology. Required courses correspond to the material covered in the full-time program and students successfully completing these courses may apply for advanced standing. The elective courses are designed as introductory courses and are not direct equivalents to the full-time laboratory courses. Students accepted into the full-time program may, however, apply for a partial exemption based on grades and skill level.

Admission requirements: Applicants must be employed in a dental laboratory, or must have received permission from the course instructor. While students may be accepted into individual courses, preference will be given to those students who enrol in a full Certificate program.

Orientation/Registration:
Applicants are asked to attend an orientation/registration session. Faculty will be available to answer questions and help plan schedules.
Orientation for part-time students takes place:
Tuesday, August 23, 6 to 9 p.m.
Cafeteria, Casa Loma Campus

Graphic Arts

Graphic Design Diploma Credits

The Visual Arts Department offers part-time credit courses in the Graphic Design program. Credits obtained part-time are transferable to the full-time diploma program.
Courses are offered in segments to equalize the hours per semester of the full-time program.
Students develop their skills in graphic design and advertising arts to the highest level of competence.
Upon graduation, students can begin their career as a junior artist and progress to professional status in the advertising arts industry. The industry offers diversity and exceptional opportunities for personal and professional growth.
All applicants must submit a portfolio of five to ten samples and pass an art test. Arrangements must be made with the Visual Arts Department for an interview and art test at least two weeks before the course starts. Graduates receive a diploma after completion of the program.
These courses may be taken as non-diploma, in which case an interview and an art test are not necessary.
Note: These courses run for two semesters. Students who have completed Semester I may register for Semester II in January. Students may have to purchase additional supplies in some courses.
For more information, call the Visual Arts Department at 867-2012 or 2013.

The George Brown College

School of Dance

Mary Jago — Artistic Advisor
Elisabeth Leyds-Holmes — Principal
Lois Smith — Founding Artistic Director

Complete ballet programs for both pre-professional and recreational students
Fall Term September 11, 1989 to January 27, 1990.
Audition Junior and Senior Divisions. September 7, 1989 (by appointment)

Under the direction of Elisabeth Leyds-Holmes, the School of Dance provides a comprehensive dance training to its professional, pre-professional and non-professional students. Although classes in other dance idioms are provided, the School is primarily ballet oriented.
The Continuing Education wing of the school encompasses our Children's (pre-professional), Adults' (non-professional) and Summer Schools.

Junior Division
For students aged 6 to 13, the Junior Division provides creative movement classes for its very youngest children. More formal ballet training begins by age 9, when students attend classes 2 or more times per week. Ballet classes are taught in a carefully graded curriculum drawing on Cecchetti, Royal Academy of Dance, Bournonville and Russian techniques.

Senior Division
Designed for more advanced students, aged 14 to 18 years, this division encompasses all the pre-professional levels. Pre-professional students attend classes up to six days per week and in addition to their daily ballet classes, study other dance forms such as modern or jazz, depending on their level.

Adult Divisions
These courses are designed for adults and non-professionals who wish to combine meaningful exercise with a deeper understanding of the technical aspects of ballet.

Classes are offered in the evening at various times throughout the week at the beginner through advanced level.

For more information about George Brown's School of Dance, please call 867-2035.

Certificate Program in Working with Adult Children and Co-Dependents

This program is designed for adult children or co-dependents involved or planning to be involved in social service/health/education work. The emphasis is two fold, looking at the counsellor's issues as they interfere with the helping relationship and examining the client's issues as they affect recovery. Some of the kinds of problems identified are rescuing, too high expectations, working long hours, carrying excessive guilt or shame and experiencing burn out. The client may experience similar problems in their life. (We do not ignore the counsellor's personal life either).
An admission interview is required. Details of registration are given to students after they are accepted into the program.
For more information about this program, call 867-2311. Registration at St. James Campus.
The following courses must be completed in order to receive a certificate: Co-Dependency Issues; Adult Child Issues; Application Seminar.

Co-Dependency Issues

Using the Life Skills model, the program identifies co-dependent characteristics and provides an opportunity to develop skills to cope with and begin to change these behaviours. This initial course will provide a platform of enhanced skills, attitudes and strategies to facilitate increased awareness and exploration of past experiences in the Adult Child Issues Course.
Multiple offerings over the year on Monday, Tuesday and Wednesday
6:30 to 9:30 p.m. St. James Campus
45 hours Fee: $77.00
Wednesday September 20 to December 21
Tuesday November 28 to March 13 • **AD 900**

Adult Child Issues

Prerequisite: AD 900 Co-dependency Issues
Using the Life Skills model, the members will participate in a series of exercises which will heighten their awareness of adult child issues as they affect their personal and professional lives. The group will become a laboratory for mutual learning and growth as well as support for modifying identified behaviours. The first four days will permit bonding, a full review of the major adult child issues and personalization of the issues.
First four days Friday/Saturday/Sunday/Monday 1) then Monday 2) then Wednesday
6:30 to 9:30 p.m. St. James Campus
90 hours Fee: $149.00
Friday August 18 to Monday February 12
Friday January 24 to Wednesday July 11 • **AD 901**

Application Seminar

Prerequisite: AD 900 & AD 901
The seminar will provide an opportunity for each student to present case material which illustrates adult child and co-dependency issues. In sharing process, the participants will also be expected to identify actual or potential examples of how the helper's adult child and co-dependency issues can obstruct the helping relationship. Examples of professional issues are over-identification, rescuing, exaggeration or inappropriate distancing. The agency as an organization will also be explored and each participant will do an analysis to check for possible reinforcement of negative adult child or co-dependent behaviours.
Multiple offerings over the year on Monday, Tuesday & Wednesday
6:30 to 8:30 St. James Campus
30 hours Fee: $53.00
Tuesday January 9 to Tuesday April 17

How to Reach Us

867-2464

Call this number for general information about continuing education courses, unless otherwise indicated in this directory.

Admission Requirements

You must be 19 years old by the day your course starts.
Exceptions are the special courses offered for children.
Foreign students who are not Canadian Citizens or Permanent Residents must obtain permission to register from Employment and Immigration Canada and present a Student Authorization at the time of registration.

Confirmation of Registration

Registrations are accepted on a first-come, first-served basis.
Receipt of registration form by the College does not guarantee enrolment. Students registering in person will receive confirmation when they register.
If you register by mail, your registration will be confirmed by mail, time permitting.
If the course you wanted is cancelled or full, you will be telephoned or notified by mail before classes begin.
You should go to the first evening of class unless you hear otherwise.

Fee Receipts

A registration receipt bearing a cash register imprint is your official income tax receipt and must be presented for admission into class, and for transfers or withdrawals.
Mail-in registrants will receive their receipts at the first scheduled class of their course, or through the mail if time permits.
Duplicate or replacement receipts will not be issued.
Materials fees are not eligible for tax deduction purposes.

Room Location

Classroom numbers will be printed on registration forms for most in-person registrants.
Others should check the main lobby on the first night of class at the campus where their course is offered.
If you need help finding a room, go to the Campus Supervisor's Office.

Counselling

Educational, vocational and personal counselling services are available at each campus on a drop-in basis or by appointment. Normal office hours are 8:30 a.m. to 4 p.m.
Counselling services are available at St. James Campus on Thursdays until 6:30 p.m.
Please contact the counselling services listed below to make an appointment
Casa Loma: 944-4586
Kensington: 867-2373
St. James : 867-2104

Certification

Many of the courses in this calendar can lead to college diplomas or certificates. Others may lead to certification or accreditation by external professional or licensing bodies.
In both cases, requirements will be clearly outlined in the course information. For further information, contact the Counselling Department at your campus or the Chairperson of the department offering your course. It is the student's responsibility to request certification.
Certificates will be prepared by the Student Records Department upon authorization by the Chairperson or Program Co-ordinator.

Advanced Standing

If you have credits from another college or educational institution, and/or related work experience, you may be eligible for advanced standing in certificate and diploma programs. Contact the Program Chairperson for details.

Grades/Credits

Graduates will receive a grade report including a short description of the course approximately one month after the course has ended.

Fees

– Course descriptions include fee information
– Personal cheques returned by the registrar's bank for reasons beyond the control of the College are subject to a $10.00 administration fee.
– The fee for all courses of 20 hours or more, that are offered on a College campus, includes a $5 campus service fee.
NOTE: The Campus Service Fee is waived for all full-time post secondary students who register for part-time courses as part of their approved program of studies. Students must present their George Brown College card at the time of registration. Without the card, students will pay the full fee.

The Campus Service Fee is not tax-deductible.

Transfers

Requests for course transfer will be accepted only if made before the third scheduled class and if space is available. Requests for transfer must be made in person or in writing and must be accompanied by the registration receipt. Transfers will be considered as a withdrawal from the first course and a registration in the second. Full fees will apply to the second course chosen. A fee of $5 is charged for this service.

Withdrawal and Refund

If you withdraw **BEFORE THE THIRD SCHEDULED CLASS**, you are entitled to a partial refund of tuition fees.
This policy does not apply to: one-day seminars, courses of three sessions or less, or the Harbourfront Sailing courses.
Apply in person or by mail to your Campus Admissions Office. A registration receipt must be presented before any refund will be made. Non-attendance at classes does not constitute an automatic notice of withdrawal.
Fees will be refunded except for a service charge of $5 and a charge of $5 per scheduled class to a maximum of $10, depending on how many classes have passed at the time of the refund request, regardless of whether or not the student attended classes.
Where a material fee has been paid, refunds will depend upon the amount of materials already used by the student during classes. No refund is permitted on or after the start date of courses lasting one or two days.
Please allow six weeks for the processing and mail delivery of College refund cheques or credit to charge card accounts.

Course Cancellation/ Changes

George Brown College reserves the right to cancel or suspend courses, combine classes, change instructors or limit enrolment. Courses will be cancelled if there is insufficient enrolment or if the instructor cannot be suitably replaced. Every effort will be made to notify students by phone.
A full refund will be made if a course is cancelled. Please allow six weeks for processing and mail delivery.
Transferees may have their original payment credited to the new course. Overpayment will be refunded by mail, or credited to charge card accounts.
Should the start of a course be postponed, registrations will be notified by telephone of their revised start dates.
Statutory holidays are not considered when advertising course termination dates. This may result in your course running a night longer if a holiday occurs during your course. The same can occur if a class is cancelled.

Financial Assistance

The Ontario Special Bursary Program (OSBP) is available to assist needy students to pursue part-time post-secondary courses, full-time vocationally oriented programs, or full-time and part-time upgrading courses. You may be eligible, if you are a Canadian citizen or permanent resident who has resided in Ontario for 12 consecutive months prior to registration, and are receiving social assistance, are unemployed or have a low family income.
An OSBP grant covers tuition fees, material and book costs, transportation allowance, and in some instances, baby sitting costs.
For more information, please contact the Financial Assistance Office at 867-2476. Our office hours are Monday to Friday, 10:00 a.m. to 4:00 p.m. Closed all day Tuesday.

The information will be used for the administration of the College and statistical purposes of the ministries and agencies of the Government of Ontario and the Government of Canada. For further information, please write to the Registrar, George Brown College of Applied Arts and Technology, P.O. Box 1015, Station B, Toronto, Ontario, M5T 2T9.

Books and Supplies

You can buy books and supplies at Campus Bookstores. Your instructor will tell you which books you will need for the course during the first class.
For your convenience, the bookstores at the Casa Loma Campus and the St. James Campus will be open evenings, Monday to Thursday, from *September 5 to December 14*; Extended hours:
Casa Loma: 4:30 to 7:30 p.m.
St. James: 4:30 to 7:30 p.m

International Students

Students who are not Canadian citizens or permanent residents may need permission to register from Employment and Immigration Canada. Please have this clarified with your Canada Immigration Centre before registering.

Senior Citizens

If you are 65 or older, you may register in most of the courses in this directory for $5.00 plus any applicable material fee, except where noted. Please be prepared to supply proof of age.

Parking

All George Brown campuses are in downtown Toronto and parking may be difficult. We suggest you leave your car at home and take the TTC instead. Call TTC information for routes to our campuses: 393-4636.
